# TM&R | TOTAL MAINTENANCE & REPAIR AGREEMENTS

**SIMPLE.  
EFFICIENT.**

Simply put, this is an agreement between Ring Power and your company where Ring Power handles most or all of the equipment maintenance and repair. TM&R gives you the financial ability to match equipment usage with equipment cost; you can elect to pay by the hour or by the month, offering consistent management of cash flow.

## WHO CAN BENEFIT FROM A TM&R?

- Earth moving companies who depend on high production on a regular basis and intend to put a minimum of 1500+hours on a machine per year.
- Contractors whose business plan seeks to minimize risk and maintain consistency through a machine's life-cycle.
- Customers who require a replacement machine if an unplanned downtime event occurs and will take over 48 hours to resolve. A TM&R guarantees a replacement machine when unplanned downtime exceeds 48 hours.
- Contractors who have extended contracts can take advantage of guaranteed buyback purchases with every machine covered by a TM&R.
- Contractors who know how much it cost them to repair and maintain their own equipment fleet:

- Machinery operators who demand the most competitive pricing available on the maintenance and repair of their equipment. A TM&R offers "Loyalty Advantage Pricing" on all parts and labor, a combination of Cat® and Ring Power incentive pricing.

## RING POWER TM&R MANAGEMENT

Ring Power takes advantage of multiple technological advancements that come on equipment today:

- Condition Monitoring Analyst "CMA's" are at the controls of our program and conduct multiple tasks that track equipment performance, utilization and health
- Maintain constant S.O.S. component history records
- Receive and analyze machine system alerts, codes and faults; dispatch technicians
- Track and maintain the proper maintenance and scheduled repair requirements
- Schedule and record all machine services and records

**“ TM&R IS A BUSINESS STRATEGY THAT ALLOWS YOU TO FOCUS EXCLUSIVELY ON THE CONSTRUCTION PROJECT AND LEAVE THE EQUIPMENT MANAGEMENT TO RING POWER. ”**
